NHBA Mentor Advice Program

The NHBA Mentor Advice Program (MAP) pairs new attorneys (advisees) with experienced practitioners (mentors) to provide guidance regarding ethical, practical, and professional issues. MAP seeks to promote positive relationships among members of the NHBA. Advisees in the Mentor Advice Program are connected with an experienced mentor beyond their firm for practical, nonjudgmental advice about practicing in the NH legal community. The program is not intended for case specific questions, and there is no set curriculum. It is intentionally very flexible to allow each pair to connect in whatever way works best for their needs.

For more information about the program or to apply go to the NHBA website at Mentor Advice Program - NHBA.
